## LEGISLATIVE COUNSEL'S DIGEST

AB 54, as amended, Negrete McLeod. Surplus state property.

(1) Existing law requires the Department of General Services to offer land that has been declared surplus by the Legislature, and that is not needed by any state agency, to local governmental agencies, subject to specified conditions.

-2-

(2) Existing law requires any agency of the state and any local agency disposing of surplus land, prior to disposing of that property, to send a written offer to sell or lease the property for specified purposes.

This bill would additionally require these agencies to send a written offer to sell or lease the property for economic development purposes.

(3) Existing law authorizes the Director of General Services to dispose of state surplus property, subject to specified conditions, including authorization by the Legislature.

This bill would authorize the Director of General Services and the Director of Transportation to sell, exchange, or lease specified parcels of state property for fair market value and would also authorize the Department of General Services to transfer some of these specified parcels. The bill would exempt the sale, exchange, lease, or transfer of the parcels from specified provisions of the California Environmental Quality Act. The bill would require the Director of General Services or the Director of Transportation, as applicable, if property is disposed of by a means other than being sold, exchanged, or leased for fair market value, to report specified information to the chairs of the legislative fiscal committees 30 days prior to completing a transaction regarding these parcels.

The bill would also authorize the use of approximately 21 acres of state surplus property in San Joaquin County for the construction and operation of the California Conservation Corps Delta Service Center.

This bill would authorize the Director of General Services, with the concurrence of the Adjutant General, subject to specified conditions, to lease the property known as the 58th Street Armory in the City of Sacramento to the Sacramento Archdiocese for the purposes of constructing and using a parking lot, upon terms and conditions in the best interests of the state.

This bill would require that the net proceeds of property sold by the Director of General Services and the Director of Transportation be deposited into the Deficit Recovery Bond Retirement Sinking Fund Subaccount, which is continuously appropriated, and would require the reservation of mineral rights, as specified.

The bill would also delete and revise provisions relating to specified authorizations to sell, exchange, lease, or transfer state surplus property.

This bill would authorize the director to-convey sell, lease, or exchange at fair market value to the City of Soledad, subject to terms,

The people of the State of California do enact as follows:

1 SECTION 1. Section 11011.1 of the Government Code is 2 amended to read:

11011.1. (a) Land that has been declared surplus by the Legislature, pursuant to Section 11011, and is not needed by any state agency shall be offered to local governmental agencies. Except as authorized in subdivisions (b), (c), (d), (e), and (k), or any combination thereof, transfers of surplus land to local governmental agencies pursuant to this section shall be at fair market value. No surplus land shall be sold for less than fair market value, however, to any person or agency, whether public or private, unless the contract for sale provides for the reversion of the land to the state if the stated purpose for which the property is sold is not achieved.

- (b) Where the land is to be used for park and recreation purposes and operated for those purposes by local agencies at no expense to the state, the Director of General Services with the approval of the State Public Works Board may, notwithstanding any provision in Section 11011, transfer the land to local governmental agencies at less than the fair market value of the land, if the transfer is in the public interest, under the following conditions:
- 22 (1) The local public agency has submitted a general 23 development plan for the property that conforms to the agency's 24 general plan pursuant to Article 5 (commencing with Section

AB 54 —4—

1 2

65300) of Chapter 3 of Title 7, and which general development plan has been approved by the Director of Parks and Recreation.

- (2) The land shall be developed according to plan within a time period determined by the state but not to exceed 10 years. The deed or other instrument of transfer shall provide that the land shall revert to the state if the land is not developed within the time period so determined by the state.
- (3) The deed or other instrument of transfer shall provide that the land would revert to the state if the use changed to a use not consistent with parks and recreation purposes during the period of 25 years following the sale.
- (c) Where the land is to be used for open-space purposes, as defined herein, and operated by local agencies at no expense to the state, the Director of General Services with the approval of the State Public Works Board may transfer the land to local governmental agencies at fair market value of the land or at any lesser value of the land under any of the following conditions:
- (1) The local public agency has submitted a plan for the use of the property that conforms to the agency's general plan pursuant to Article 5 (commencing with Section 65300) of Chapter 3 of Title 7, and which plan has been approved by the Director of Parks and Recreation.
- (2) The land shall be used according to plan within a time period determined by the state but not to exceed 10 years.
- (3) The deed or other instrument of transfer shall provide that the land would revert to the state if the use changed to a use not consistent with open-space purposes during the period of 25 years following the sale.
- (4) For the purpose of this subdivision, "open-space purpose" means the use of land for public recreation, enjoyment of scenic beauty, or conservation or use of natural resources.
- (d) Where the land is suitable to be used for the purpose of providing housing for persons and families of low or moderate income, as defined in Section 50093 of the Health and Safety Code, the Director of General Services, with the approval of the State Public Works Board, may offer the land to local agencies within whose jurisdiction the land is located. Provided, however, if the state has held title to the land for seven years or less and the land is not used for the purposes for which it was acquired, and the land is declared surplus land and is not needed by any other

**—5— AB 54** 

1 state agency pursuant to the provisions of Section 11011, the 2 state, prior to offering the land to local agencies, shall extend to 3 the individual from whom the land was acquired an offer to 4 purchase the land at current fair market value. The offer shall 5 extend for 60 days and if not exercised within that period shall be 6 irrevocably terminated. The land may be transferred to local 7 agencies at a reasonable cost that will enable the provision of 8 housing for persons and families of low or moderate income. The cost may be less than fair market value. The Department of 10 Housing and Community Development shall recommend to the 11 Department of General Services a cost that will enable the 12 provision of housing for persons and families of low or moderate 13 income. All transfers of land pursuant to this subdivision shall be 14 subject to the following conditions: 15

- (1) The local agency has made all of the following findings:
- (A) There is a need for the housing in the community.

- (B) The land is suitable for development of the housing.
- (2) The local agency develops a plan for the housing in accordance with criteria established by the Department of Housing and Community Development, which shall include, but not be limited to, criteria respecting the financial condition of the developer, if the housing is to be developed by a private sponsor, and the cost of the project. The plan shall be approved by the Department of Housing and Community Development.
- (3) After transfer of the property from the state to the local agency, the property shall be developed as housing for persons and families of low or moderate income. The local agency may lease or sell the property to any nonprofit corporation, housing corporation, limited dividend housing corporation, or private developer if the local agency determines a private entity is best suited to develop housing for persons and families of low or moderate income. In authorizing the private development, the local agency shall impose reasonable terms and conditions as will further the purposes of this subdivision, which shall include, but not be limited to, continued use of the property for housing for persons and families of low or moderate income for not less than 40 nor more than 55 years. A lessee or purchaser of land pursuant to this subdivision shall agree to limitations on profit in the operation of the property that will benefit the public and assure that the housing provided thereon is within the means of persons

-6-

and families of low or moderate income. The agreement shall be binding upon successors in interest of the original lessee or purchaser and shall inure to the benefit of, and be enforceable by, the state.

(4) The local agency shall assure that the land will be used for the purpose of providing low- or moderate-income housing and shall not permit the use of the dwelling accommodations of the project for any other purpose for not less than 40 nor more than 55 years, except as provided in this section.

In the event a local agency does not comply with the land use requirements prescribed in this section, as determined by the Department of General Services, the Department of General Services may require that the local agency pay the state the difference between the actual price paid by the local agency for the property and the fair market value of the property, at the time of the department's determination of noncompliance, plus 6 percent interest on that amount for the period of time the land has been held by the local agency.

If the local agency, with the approval of the Department of General Services, and in consultation with the Department of Housing and Community Development, determines that there is no longer a need for low- or moderate-income housing within the jurisdiction of the local agency and another valid public purpose could be achieved by utilizing the land in an alternative manner, the local agency shall not be required to make any payment to the state for the difference between purchase price and fair market value or interest charges for the period of time the land has been held by the local agency.

- (5) Failure to comply with the provisions of this section shall not invalidate the transfer, sale, or conveyance of the real property to a bona fide purchaser or encumbrancer for value.
- (6) The project shall be commenced within 24 months of the original transfer to the local agency. However, the Department of General Services, in consultation with the Department of Housing and Community Development, may for justifiable cause extend the time for commencement of development for an additional 36 months. The aggregate time for commencing development shall not exceed 60 months. The deed or other instrument of conveyance shall specify that, if development has not commenced within that time, the land shall revert to the

-7- AB 54

Department of General Services for disposal pursuant to this section or as otherwise authorized by law.

- (7) As used in this subdivision, "local agency" means and includes any county, city, city and county, redevelopment agency organized pursuant to Part 1 (commencing with Section 33000) of Division 24 of the Health and Safety Code, or housing authority organized pursuant to Part 2 (commencing with Section 34200) of Division 24 of the Health and Safety Code, public district or other political subdivision of the state and any instrumentality thereof, which is authorized to engage in or assist in the development or operation of housing for persons and families of low or moderate income and also includes two or more of those agencies acting jointly pursuant to Part 1 (commencing with Section 6500) of Division 7 of this code.
- (8) Up to 40 percent of the housing developed on land purchased at below market value pursuant to this subdivision may be housing that is not regulated as to price, rent, or eligibility of occupants only if the purchaser of the land demonstrates that the proceeds from the sale or rental of that housing, in an amount equal to the difference between the fair market value and the actual price paid for the land, is used to reduce prices or rents on other housing units that are made available exclusively to persons and families of low and moderate income.
- (e) Where the land is suitable to be used for the purpose of providing housing for persons and families of low or moderate income, as defined in Section 50093 of the Health and Safety Code, and provided no local agency has acquired or is in the process of acquiring the land pursuant to subdivision (d), the Director of General Services, with the approval of the State Public Works Board, may lease or sell the land to a housing sponsor. The land may be sold or leased at a reasonable cost that may be less than fair market value. The Department of Housing and Community Development shall recommend to the Director of General Services a cost that will enable the provision of housing for persons and families of low or moderate income. All transfers of land pursuant to this subdivision shall be subject to all of the following conditions:
- (1) The housing sponsor has submitted a plan for the development of that housing pursuant to criteria established by

-8-

the Department of Housing and Community Development. The criteria shall include, but need not be limited to, standards with respect to the cost of the housing development and the proportion of the housing development to be occupied by persons and families of low and moderate income. Insofar as is practical, the plan shall provide for a mix of housing for all income groups.

- (2) The housing development shall normally be developed or be under development within 24 months from the time of transfer or lease of the land to the housing sponsor. However, the Department of General Services, in consultation with the Department of Housing and Community Development, may, upon finding justifiable cause, extend the time for commencement of development for an additional period of 36 months. The aggregate of all extensions for commencement of development shall not exceed 60 months. The deed or other instrument of conveyance shall specify that if development has not commenced within that time, the land shall revert to the Department of General Services for disposal pursuant to this section or as otherwise authorized by law.
- (3) Transfer of title to the land or lease of the land to a housing sponsor shall be conditioned upon continued use of the property as housing for persons and families of low and moderate income for not less than 40 nor more than 55 years. In accordance with regulations that shall be adopted by the Department of Housing and Community Development pursuant to the Administrative Procedure Act, the Director of General Services shall require that any housing sponsor purchasing or leasing land pursuant to this subdivision enter into an agreement that (A) provides for limitations on profit in the operation of that property that benefit the public and which assure that the housing is affordable to persons and families of low and moderate income, and (B) does not permit the use of the property for purposes other than the provision of housing for persons and families of low and moderate income except as provided in this subdivision. Upon recordation of the agreement in the office of county recorder in the county in which the real property subject to the agreement is located, the agreement shall be binding for a period of not less than 40 nor more than 55 years upon successors in interest to the original housing sponsor and shall inure to the benefit of, and be enforceable by, the state.

-9- AB 54

For the purposes of this subdivision, "housing sponsor" means a nonprofit corporation incorporated pursuant to Part 1 (commencing with Section 9000) of Division 2 of Title 1 of the Corporations Code; a cooperative housing corporation which is a stock cooperative, as defined by Section 11003.2 of the Business and Professions Code; a limited-dividend housing corporation; or a private housing developer who agrees to the conditions set forth in this subdivision.

- (4) Up to 40 percent of the housing developed on land purchased at below market value pursuant to this subdivision may be housing which is not regulated as to price, rent, or eligibility of occupants only if the purchaser of the land demonstrates that the proceeds from the sale or rental of that housing, in an amount equal to the difference between the fair market value and the actual price paid for the land, is are used to reduce prices or rents on other housing units which are made available exclusively to persons and families of low and moderate income.
- (f) The Department of Housing and Community Development, in consultation with the Department of General Services and the Office of Planning and Research, shall make a report to the Legislature on or before January 1, 1981, with respect to effectiveness of the program and shall recommend any necessary legislative changes to the provisions of subdivision (d).
- (g) Where the land is to be used for public purposes other than specifically set forth in this section, is to be operated by the local agency at no expense to the state, and the use and enjoyment of the public purpose contemplated will be of broad public benefit, and not a benefit basically of local interest enjoyed and used primarily by the residents of the area of tax jurisdiction of the local agency, the Director of General Services, with the approval of the State Public Works Board, may transfer the land to local governmental agencies at a sales price not less than 50 percent of fair market value. The transfer shall provide that if the land is not used for the contemplated purpose during the period of 25 years following the sale, the land shall revert to the state. The Director of General Services may provide additional terms and conditions which he or she determines to be in the best interest of the state.
- (h) If there is more than one appropriate use and more than one offer for the use of a parcel of surplus land, the Department

AB 54 -10-

of General Services, in consultation with the Department of Housing and Community Development, the Department of Parks and Recreation, and the Office of Planning and Research, shall determine the most appropriate use for the parcel and the Department of General Services shall offer the land accordingly.

- (i) Land that has been declared surplus by the Legislature, pursuant to Section 11011, is not needed by any state agency, is suitable for development for housing purposes, and is not in the process of being acquired pursuant to other provisions of this section, may upon the request of the Department of Housing and Community Development be retained by the Director of General Services for a period not exceeding five years, during which the Director of General Services shall continue to offer the lands for housing pursuant to subdivision (d).
- (j) Transfer of state surplus lands under subdivision (d) shall be at a cost which will enable provision of economically feasible housing for persons and families of low or moderate income.
- (k) Where the land is to be used for school purposes, the Director of General Services with the approval of the State Public Works Board and the State Allocation Board may, notwithstanding any provision in Section 11011, transfer the land to a local school district at less than fair market value of the land, if the transfer is in the public interest, under the following conditions:
- (1) The land is suitable for use by a school district as a schoolsite, school administration building site, school warehouse site, or other school use approved by the State Department of Education.
- (2) The land is used by the school district for those purposes before a nonuse fee is required by Section 39015 of the Education Code or a later time approved by the State Department of Education, with a reversion to the state if not so used within the time prescribed.
- (3) The deed or other instrument of transfer shall provide that the land shall revert to the state if the use is changed to a use not consistent with school purposes during the period of 25 years following the sale.
- (1) Where the land-is declared surplus pursuant to subdivision (a) is deemed by the Director of General Services to be suitable for economic development purposes, as defined in subdivision

-11- AB 54

1 (e) of Section 54221, the Department of General Services may 2 offer the land to local governmental agencies at fair market 3 value.

- (m) This section shall be inoperative for the period commencing with the effective date of the act that added this subdivision, until July 1, 2005.
- 7 SEC. 2. Section 11011.21 of the Government Code is 8 amended to read:

- 54220. (a) The Legislature reaffirms its declaration that housing is of vital statewide importance to the health, safety, and welfare of the residents of this state and that provision of a decent home and a suitable living environment for every Californian is a priority of the highest order. The Legislature further declares that there is a shortage of sites available for housing for persons and families of low and moderate income

AB 54 — 14 —

1 and that surplus government land, prior to disposition, should be 2 made available for that purpose.

- (b) The Legislature reaffirms its belief that there is an identifiable deficiency in the amount of land available for recreational purposes and that surplus land, prior to disposition, should be made available for park and recreation purposes or for open-space purposes. This article shall not apply to surplus residential property as defined in Section 54236.
- (c) The Legislature reaffirms its declaration of the importance of appropriate planning and development near transit stations, to encourage the clustering of housing and commercial development around—such transit stations. Studies of transit ridership in California indicate that a higher percentage of persons who live or work within walking distance of major transit stations utilize the transit system more than those living elsewhere. The Legislature also notes that the Federal Transit Administration gives priority for funding of rail transit proposals to areas that are implementing higher density, mixed-use development near major transit stations.
- (d) The Legislature further declares for purposes of disposing of surplus property its belief that—economic development of vacant and underutilized land is important to the financial well-being of local agencies. Economic development expands local employment and commerce opportunities, enhances quality of life, and increases community land values and tax revenues to local agencies, which in turn increases local government services and benefits available to residents. Economic development also deters crime and improves community security. The Legislature affirms that there is a shortage of land available for economic development purposes and that surplus state land, prior to disposition, should be made available to local agencies for economic development purposes.
- 33 SEC. 4. Section 54221 of the Government Code is amended to read:
- 54221. (a) As used in this article, the term "local agency" means every city, whether organized under general law or by charter, county, city and county, and district, including school districts of any kind or class, empowered to acquire and hold real property.

-15- AB 54

(b) As used in this article, the term "surplus land" means land owned by any agency of the state, or any local agency, that is determined to be no longer necessary for the agency's use, except property being held by the agency for the purpose of exchange.

- (c) As used in this article, the term "open-space purposes" means the use of land for public recreation, enjoyment of scenic beauty, or conservation or use of natural resources.
- (d) As used in this article, the term "persons and families of low or moderate income" means the same as provided under Section 50093 of the Health and Safety Code.

If the surplus land is not sold to an owner of contiguous land, it is not considered exempt surplus land and is subject to the provisions of this article.
- (g) Notwithstanding subdivision (e), the following properties are not considered exempt surplus land and are subject to the provisions of this article:
  - (1) Lands within the coastal zone.
- (2) Lands within 1,000 yards of a historical unit of the State Parks System.
